## **DETAILED ACTION**

## Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 2-12,14-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kelso'803 for the reasons of record.

The response filled by applicants on August 13, 2009 have been fully considered.

Applicants have argued that the applied Kelso'803 reference does not teach or suggest the claimed invention. The examiner respectfully disagree. The teachings of the prior art do not need to disclose all details of the claimed invention. The examiner submits that Kelso'803 discloses essential elements of the claimed invention. First, pressure is applied to a wood substrate and wood is impregnated. Second, Kelso'803 teaches use of temperature. The examiner submits that it would have been obvious to one having ordinary skill in the art at the time of the invention to optimize conditions of the process and that includes optimizing pressure, temperature, timing and composition. Applying temperature to a different stages of the process is commonly practiced in the art. Furthermore, impregnation of wood with liquid resin instead

of water based solution would have been obvious to one having ordinary skill in the art based on commonly known practices.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to leszek b. kiliman whose telephone number is 571-272-1509. The examiner can normally be reached on M-T, 6.30-5.00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, callie shosho can be reached on 571-272-1123. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
